Message from The Principal

One of the major advantages of being part of an International School community is the wealth of opportunities that are available to the learners and staff. This week has seen that in bucket loads as we have enjoyed Challenge Week.

Nexus was invited to send a representative learner to speak at the Youth Forum as part of the Malaysian International Dive Expo. Annette Peterson, who recently passed her Advance Diving Qualification in Sabah as part of Challenge Week represented the school at the event.

I have been following many trips from afar as well as seeing happy, active learners here on campus. It has been quite an experience. From the Y13 learner who has passed her Advanced Diving course in Sabah, through to the golfers perfecting their drives at UPM

and nearer home, a group of learners making wonderful terrariums in the Science lab, this week has been full of challenge and opportunity.

In this newsletter, we let the photos speak for themselves. Enjoy!
